

# Homemade Binoculars

Make your own pair of binoculars to check out what's going on outside! Are there buds on the trees yet? Can you spot a robin?

You will need: cardboard tube (paper towel roll cut in half), glue, markers, stickers, scissors or hole punch, string.

1. Glue the two cardboard tubes together.
2. Decorate your binoculars! Use crayons, stickers, tissue paper, gems, or washi tape.
3. Poke holes into the sides of your binoculars if you want to wear them around your neck like an adventurer!
4. Tie one end of your string through one hole, and repeat on the other side.
5. You're ready to explore! Challenge
